TRX500FA (2001-2004), TRX500FGA (2004)

The Heart Surgery of the Potential Minister of the Gospel presents a series of lectures by Professor Zacharias Taneë Fomum to Missionaries and would-be missionaries. The author goes into great dept to provide biblical insight on God's primary concern about the Gospel minister - The WHO or the WHAT. The determinant factor in the acceptance, usefulness, and impact of a minister of the Gospel in the service of God, The expedient attributes and qualifications of a competent minister of the gospel? Drawing from his own life experience and spiritual history with God, he explained the kind of life and heart God desires and approves of in a minister of the Gospel. This book is a must-read for every minister and would-be minister of the gospel who desires that the Lord—the great Physician—should work through the Holy Spirit in him or her to perform the needed surgery that would produce a useful vessel whose life and work can find acceptance before God, bring joy to His heart and receive His approval and commendation.

Haynes has discovered all the problems that motorcycle owners could possibly encounter when rebuilding or repairing their bikes. Documenting the most common DIY fixes with hundreds of illustrations and step-by-step instructions, this compendium of repair, modification and troubleshooting advice is applicable to all domestic and import marques.

This book describes the three gasotransmitters nitric oxide (NO), hydrogen sulphide (H2S) and carbon monoxide (CO) and their function as intracellular signalling molecules in plants. Common properties are shared by NO, H2S and CO: they are beneficial at low concentrations but hazardous in higher amounts; they are small molecules of gas; they can freely cross cell membranes; their effects do not rely on receptors; they are generated enzymatically and their production is regulated; their functions can be mimicked by exogenous application; and their cellular effects may or may not be mediated by second messengers, but have specific cellular and molecular targets. In plants, many aspects of the biology of gasotransmitters remain completely unknown and generate intriguing questions, which will be discussed in this book.

Expert advice and color photo sequences help young readers and beginners to get started welding safely and with confidence.

From debut author, Olivia Stephen, comes a steamy, contemporary romance novel about loss, love, and second chances.When her first love abandons her, and a heart-wrenching accident takes her parents too soon, Raina decides it's time for a fresh start. In a brand new town, with walls planted firmly around her heart, Raina has given up on her happily ever after, deciding it's easier to be alone than to risk losing it all. For a second time.When she meets Zane, the new bartender in the small North Carolina town she now calls home, the foundation of those walls begins to crumble. Broody, irritable, and incredibly sexy, there's something about him she just can't shake.As they begin to forge a connection together, Zane's tumultuous past catches up with him and threatens to destroy any potential future they may have, leaving Raina to question all the decisions she's made.Watching over Raina is the hardest promise Zane has ever had to make. Sometimes love doesn't heal all wounds and not all happy endings are meant to be. But perhaps two tortured souls can find the peace they deserve, together.**Mature audiences. 18+
