retention in the classroom. High-interest and hands-on, interactive notebooks effectively engage students in learning new concepts. Students are encouraged to personalize interactive notebooks to fit their specific learning needs by creating fun, colorful pages for each topic. With this note-taking process, students will learn organization, color coding, summarizing, and other important skills while creating personalized portfolios of their individual learning that they can reference throughout the year.

--Spanning grades kindergarten to grade 8, the Interactive Notebooks series focuses on grade-specific math, language arts, or science skills. Aligned to meet current state standards, every 96-page book in this series offers lesson plans to keep the process focused. Reproducibles are included to create notebook pages on a variety of topics, making this series a fun, one-of-a-kind learning experience.

Common Core Science 4 Today: Daily Skill Practice provides the perfect standards-based activities for each day of the week.

Reinforce science topics and the math and language arts Common Core State Standards all year long in only 10 minutes a day! Weeks are separated by science topic so they may be completed in the order that best complements your science curriculum. Review essential skills during a four-day period and assess on the fifth day for easy progress monitoring.

Access Free 4th Grade Science Workbook

Common Core Science 4 Today series for kindergarten through fifth grade covers 40 weeks of science topics with engaging, cross-curricular activities. Common Core Science 4 Today includes a Common Core Standards Alignment Matrix, and shows the standards covered on the assessment for the week for easy planning and documentation. Common Core Science 4 Today will make integrating science practice into daily classroom instruction a breeze!

Supplement your science curriculum with 180 days of daily practice! This invaluable classroom resource provides teachers with weekly science units that build students' content-area literacy, and are easy to incorporate into the classroom. Students will analyze and evaluate scientific data and scenarios, improve their understanding of science and engineering practices, answer constructed-response questions, and increase their higher-order thinking skills. Each week covers a particular topic within one of three science strands: life science, physical science, and Earth and space science. Aligned to Next Generation Science Standards (NGSS) and state standards, this resource includes digital materials. Provide students with the skills they need to think like scientists with this essential resource!
