Reviewed in the United States on November 7, 2017. Verified Purchase. In " Constellation of Genius: 1922 Modernism Year One," Kevin Jackson brackets the year 1922 with James Joyce and T.S. Eliot. Joyce ' s " Ulysses " was published in early February of 1922, and Eliot ' s " The Waste Land " in October. Other writers are mentioned and discussed, but for Jackson, Joyce and Eliot are the literary revolution of 1922.

Constellation of Genius: 1922: Modernism Year One. by Kevin Jackson. 3.81 · Rating details · 187 ratings · 32 reviews. Ezra Pound referred to 1922 as Year One of a new era. It was the year that began with the publication of James Joyce ' s Ulysses and ended with the publication of T. S. Eliot ' s The Waste Land: respectively, the most influential English-language novel and poem of the century.

Constellation of Genius: 1922: Modernism Year One by Kevin ...

Ezra Pound referred to 1922 as Year One of a new era. It was the year that began with the publication of James Joyce's Ulysses and ended with the publication of T. S. Eliot's The Waste Land, two works that were arguably "the sun and moon" of modernist literature, some would say of modernity itself. In Constellation of Genius, Kevin Jackson puts the titanic achievements of Joyce and Eliot in the context of the world in which their works first appeared.

Constellation of Genius: 1922: Modernism Year One by Kevin Jackson. Declared Year One of a new era by Modernism's head cheerleader, Ezra Pound, 1922 is famously the publication year of the twin figures of Modernist literature, James Joyce's Ulysses and T.S. Eliot's The Waste Land. According to Kevin Jackson, these seminal works may have been the brightest stars of this landmark year, but they were in a sky "that was blazing with a 'constellation of genius' of a kind that had never been known ...

Constellation of Genius, 1922: Modernism Year One

What a difference a year makes—or so suggests British critic Kevin Jackson in Constellation of Genius: 1922: Modernism Year One. That was the year both James Joyce ' s Ulysses and T.S. Eliot ' s The Waste Land were published, after that, Jackson says, art and literature were never quite the same. But those tent poles of the modernist movement were not the only avant-garde artistic rumblings in 1922—indeed, as this cleverly compiled book shows, the established cultural landscape was ...

Putting the accomplishments of Joyce and Eliot in the context of the world in which their works first appeared, this energetic chronicle of 1922 is told through the diaries of the anthropologists, actors, artists, designers, filmmakers, and others whose lives and works collided over 12 months.

Ezra Pound referred to 1922 as Year One of a new era. It was the year that began with the publication of James Joyce's Ulysses and ended with the publication of T. S. Eliot's The Waste Land, two works that were arguably "the sun and moon" of modernist literature, some would say of modernity itself. In Constellation of Genius, Kevin Jackson puts the titanic achievements of Joyce and Eliot in the context of the world in which their works first appeared. As Jackson writes in his introduction, "On all sides, and in every field, there was a frenzy of innovation." It is in 1922 that Hitchcock directs his first feature; Kandinsky and Klee join the Bauhaus; the first AM radio station is launched; Walt Disney releases his first animated shorts; and Louis Armstrong takes a train from New Orleans to Chicago, heralding the age of modern jazz. On other fronts, Einstein wins the Nobel Prize in Physics, insulin is introduced to treat diabetes, and the tomb of Tutankhamun is discovered. As Jackson writes, the sky was "blazing with a " constellation of genius" of a kind that had never been known before, and has never since been rivaled." Constellation of Genius traces an unforgettable journey through the diaries of the actors, anthropologists, artists, dancers, designers, film-makers, philosophers, playwrights, politicians and scientists whose lives and works collided over twelve months, creating a frenzy of innovation and the beginning of a new era.

1922. The spectacular year that F. Scott Fitzgerald chose as a backdrop for his most famous novel The Great Gatsby. It was also the year where James Joyce ' s Ulysses and T. S. Eliot ' s The Waste Land were published, Alfred Hitchcock directed his first feature, the Ottoman Empire collapsed, Louis Armstrong took the train from New Orleans to Chicago and made Jazz the defining music of the age, and Hollywood transformed the nature of fame. Constellation of Genius is the gloriously entertaining journey through the diaries of the actors, anthropologists, artists, dancers, designers, film-makers, philosophers, playwrights, politicians and scientists whose lives and works collided over twelve months, creating a frenzy of innovation and the beginning of a new era.

A Lambda Literary Awards Finalist Named one of the best books of 2017 by NPR's Book Concierge A revelatory narrative of the intersecting lives and works of revered authors Virginia Woolf, T. S. Eliot, E. M. Forster and D. H. Lawrence during 1922, the birth year of modernism The World Broke in Two tells the fascinating story of the intellectual and personal journeys four legendary writers, Virginia Woolf, T. S. Eliot, E. M. Forster, and D. H. Lawrence, make over the course of one pivotal year. As 1922 begins, all four are literally at a loss for words, confronting an uncertain creative future despite success in the past. The literary ground is shifting, as Ulysses is published in February and Proust ' s In Search of Lost Time begins to be published in England in the autumn. Yet, dismal as their prospects seemed in January, by the end of the year Woolf has started Mrs. Dalloway, Forster has, for the first time in nearly a decade, returned to work on the novel that will become A Passage to India, Lawrence has written Kangaroo, his unjustly neglected and most autobiographical novel, and Eliot has finished—and published to acclaim—" The Waste Land." As Willa Cather put it, " The world broke in two in 1922 or thereabouts, " and what these writers were struggling with that year was in fact the invention of modernism. Based on original research, Bill Goldstein's The World Broke in Two captures both the literary breakthroughs and the intense personal dramas of these beloved writers as they strive for greatness.

A boldly illustrated celebration of literary history ' s most revolutionary, talented women writers Women have written some of our most extraordinary literary works while living in societies and cultures that tried to silence them. These women dared to put pen to paper to express the multifaceted female experience. In Bookish Broads, Lauren Marino celebrates fierce, trailblazing female writers, reworking the literary canon that has long failed to recognize the immense contributions of women. Featuring more than 50 brilliant bookish broads, Marino cleverly illuminates the lives of the greats as well as the literary talents history has wrongfully overlooked. Each intimate portrait delves into one woman ' s works and is accompanied by vibrant illustrations depicting each literary legend in her element and time.

A reassessment of the life and work of the preeminent 20th-century poet examines the idiosyncratic expressions that led to critical disagreements about his achievements, providing coverage of such topics as his Cambridge youth, Harvard education and relationships with fellow writers.

How can we understand the infinite variety of cities? Darran Anderson seems to exhaust all possibilities in this work of creative nonfiction. Drawing inspiration from Marco Polo and Italo Calvino, Anderson shows that we have much to learn about ourselves by looking not only at the cities we have built, but also at the cities we have imagined. Anderson draws on literature (Gustav Meyrink, Franz Kafka, Jaroslav Hasek, and James Joyce), but he also looks at architectural writings and works by the likes of Bruno Taut and Walter Gropius. Medieval travel memoirs from the Middle East, mid-twentieth-century comic books, Star Trek, mythical lands such as Cockaigne, and the works of Claude Debussy. Anderson sees the visionary architecture dreamed up by architects, artists, philosophers, writers, and citizens as wedded to the egalitarian sense that cities are for everyone. He proves that we must not be locked into the structures that exclude ordinary citizens—that cities evolve and that we can have input. As he says: "If a city can be imagined into being, it can be re-imagined as well."

Discover one of the world's most fascinating and historic cities through 30 dramatic true stories spanning the rich history of London. Author Kevin Jackson takes readers through more than 2,000 years of British history with exciting essays on topics such as London's origins, Richard the Lion-Hearted, Geoffrey Chaucer, Henry V, Shakespeare, Queen Victoria, Jack the Ripper, Charles Dickens, Oscar Wilde, the Beatles, and more. In addition, guided walking tours of London's historic neighborhoods, illustrated with color photographs and period maps, take readers to the places where history really happened.

Professor Adam Krug, the foremost philosopher of his country, is, along with his son, kidnapped by the government in hopes of making him support Paduk, dictator and leader of the Party of the Average Man

Cultural critic Fredric Jameson, renowned for his incisive studies of the passage of modernism to postmodernism, returns to the movement that dramatically broke with all tradition in search of progress for the first time since his acclaimed A Singular Modernity. The Modernist Papers is a tour de force of anlysis and criticism, in which Jameson brings his dynamic and acute thought to bear on the modernist literature of the nineteenth and twentieth centuries. Jameson discusses modernist poetics, including intensive discussions of the work of Baudelaire, Rimbaud, Mallarmé, Wallace Stevens, Joyce, Proust, and Thomas Mann. He explores the peculiarities of the American literary field, taking in William Carlos Williams and the American epic, and examines the language theories of Gertrude Stein. Refusing to see modernism as simply a Western phenomenon he also pays close attention to its Japanese expression; while the complexities of a late modernist representation of twentieth-century politics are articulated in a concluding section on Peter Weiss ' s novel The Aesthetics of Resistance. Challenging our previous understanding of the literature of this period, this monumental work will come to be regarded as the classic study of modernism.
