Written by bestselling author Boris Starling, Christmas is one of the new titles for 2017 in the Haynes Explains series. A lighthearted and entertaining take on the classic workshop manual, it contains everything you'd expect to see, including exploded views, flow charts, fault diagnosis and the odd wiring diagram. It takes the reader through all areas of Christmas, giving all the hints and tips needed to make the entire festive period run smoothly.

Easy to follow step by step instructions & advice which enables the owner to carry out many jobs himself for the Mercedes-Benz Sprinter Van & Camper Diesel. Models covered: 208 CDI, 308 CDI, 211 CDI, 311 CDI, 411 CDI, 213 CDI, 313 CDI, 413 CDI, 216 CDI, 316 CDI, 416 CDI with the 2.2 & 2.7 litre CDI Diesel (types 611 DELA & 612 DELA) From 2000 to 2006 with the common rail injection system. A total of 232 fully illustrated pages.

**OUR CULTURE HAS BECOME OBSESSED WITH HUSTLING.** As we struggle to keep up in a knowledge economy that never sleeps, we arm ourselves with life hacks, to-do lists, and an inbox-zero mentality, grasping at anything that will help us work faster, push harder, and produce more. There's just one problem: most of these solutions are making things worse. Creativity isn't produced on an assembly line, and endless hustle is ruining our mental and physical health while subtracting from our creative performance. Productivity and Creativity are not compatible; we are stuck between them, and like the opposite poles of a magnet, they are tearing us apart. When we're told to sleep more, meditate, and slow down, we nod our heads in agreement, yet seem incapable of applying this advice in our own lives. Why do we act against our creative best interests? **WE HAVE FORGOTTEN HOW TO FLOAT.** The answer lies in our history, culture, and biology. Instead of focusing on how we work, we must understand why we work—why we believe that what we do determines who we are. *Hustle and Float* explores how our work culture creates contradictions between what we think we want and what we actually need, and points the way to a more humane, more sustainable, and, yes, more creative, way of working and living.

This book constitutes the refereed proceedings of the 17th International Conference on Artificial Intelligence: Methodology, Systems, and Applications, AIMS A 2016, held in Varna, Bulgaria in September 2015. The 32 revised full papers 6 poster papers presented were carefully reviewed and selected from 86 submissions. They cover a wide range of topics in AI: from machine learning to natural language systems, from information extraction to text mining, from knowledge representation to soft computing; from theoretical issues to real-world applications.

Jennifer Ashley's New York Times bestselling Shifters Unbound series continues as a Shifter and a human are faced with the unexpected, undeniable pull of a bond... As the military liaison between the human Shifter Bureau and Shiftertown, Walker is often stuck trying to appease both sides—and angering both. So when bear-Shifter Rebecca is captured taking a run in a restricted area, Walker has to talk fast to get her released. The compromise: if Rebecca helps him find a missing woman—thought to have been abducted by a Shifter—she won't be charged and executed. Mate-less Rebecca is not happy to be under Walker's supervision. As a bear used to roaming for miles, she hates being confined and restricted, she distrusts anything involving humans, and—worst of all—the strong and handsome Walker starts triggering her mating need. They have no choice but to work together, and as they continue their search for the missing girl, uncovering secrets neither Shifters nor humans want them to know, both Walker and Rebecca find it hard not to mix business with pleasure... Includes a preview of Jennifer Ashley's upcoming novel *Mate Bond*. Praise for the Shifters Unbound series: “ Ashley's Shifter world is exciting, sexy, and magical. ” —Yasmine Galenorn, New York Times bestselling author “ A must-buy series for paranormal romance

lovers. ” —Fiction Vixen “ Scorchingly sensual...High-adrenaline suspense. ” —Booklist “ A superb, well-written paranormal series. ” —Fresh Fiction Jennifer Ashley, New York Times and USA Today bestselling author of *Mate Bond* and winner of a Romance Writers of America RITA Award, also writes as national bestselling and award-winning author Allyson James. She lives in the Southwest with her husband and cats, and spends most of her time in the wonderful worlds of her stories.

This specialty buying guide presents easy-to-use historical profiles of some 200 models--cars, trucks, minivans, sport utility vehicles--giving readers a comprehensive view of each model as a used car.

One of the most important subjects for any student of engineering or materials to master is the behaviour of materials and structures under load. The way in which they react to applied forces, the deflections resulting and the stresses and strains set up in the bodies concerned are all vital considerations when designing a mechanical component such that it will not fail under predicted load during its service lifetime. Building upon the fundamentals established in the introductory volume *Mechanics of Materials 1*, this book extends the scope of material covered into more complex areas such as unsymmetrical bending, loading and deflection of struts, rings, discs, cylinders plates, diaphragms and thin walled sections. There is a new treatment of the Finite Element Method of analysis, and more advanced topics such as contact and residual stresses, stress concentrations, fatigue, creep and fracture are also covered. Each chapter contains a summary of the essential formulae which are developed in the chapter, and a large number of worked examples which progress in level of difficulty as the principles are enlarged upon. In addition, each chapter concludes with an extensive selection of problems for solution by the student, mostly examination questions from professional and academic bodies, which are graded according to difficulty and furnished with answers at the end.
