Jack Page, a member of the Marine Corps Reserves, makes it to his destination. Twenty-two other pilots are missing, and it's up to Major Rum Collins to find out what went wrong. With so many messages rocketing across the Pacific, it is hard to track down any of the pilots. Collins wonders where they are, why no emergency radio signals were detected and if it's possible that the Japanese somehow took the pilots as prisoners. While Collins and his close circle of fellow Marines know that they are investigating one of the worst disasters in aviation history, they keep the story under wraps. The investigation is labeled top secret, and everyone waits for the truth to be discovered in *Sea Eagle Down*.

In a compelling narrative structured as one trip to the moon, Harry Hurt recounts all the drama and danger of the lunar voyages, from the anxiety of the astronauts' prelaunch procedures through the euphoria of touchdown on the lunar surface. Updated with a new introduction by the author for the 50th anniversary of the Apollo 11 moon landing, *For All Mankind* is both an extraordinary adventure story and an important historical document.
