Following the sudden end of her marriage, Annabelle Beck returns from Melbourne to the sanctuary of her old family home in North Queensland. There she discovers that the former stockman, Bo Rennie, knows her from her childhood.

Winner of the 2003 Miles Franklin Award. A superbly compelling work of betrayals, compassion, secrets and reconciliation.

Betrayed by her husband, Annabelle Beck retreats from Melbourne to her old family home in tropical North Queensland where she meets Bo Rennie, one of the Jangga tribe. Intrigued by Bo's claim that he holds the key to her future, Annabelle sets out with him on a path of recovery that leads back to her childhood and into the Jangga's ancient heartland, where their grandparents' lives begin to yield secrets that will challenge the possibility of their happiness together. With the consummate artistry of a novelist working at the height of his powers, Miller convinces us that the stone country is not only a remote and exotic location in North Queensland, but is also an unvisited place within each of us. Journey to the Stone Country confirms Miller's reputation as one of Australia's most intelligent and uncompromising writers.

Walt Johnson has been a rolling stone most of his life, moving from town to town and living on the edges of homelessness. Now he has run out of time as lung cancer has left him only months to live. Walt then begins a quest to find the son with whom he lost contact decades earlier. Out of money, he lands a job at a small-town restaurant in an attempt to save enough to buy a bus ticket to the last known whereabouts of his son. The friends Walt makes at his new job soon become family for him, especially 14-year-old Danny who is emotionally paralyzed at the loss of his own father in Iraq. Faced with Danny's struggles to grow up and the struggles of his other new friends, Walt comes to realize he is not only on a journey to find his own son, but he is on a journey to find himself worthy of being a father.

James Michael Wine weaves a personal journey of learning, at turns humorous, political, poetic and insightful, as he claims that Sweden is probably the best country on Earth. Love brought him to the North, but it was the use of "Sweden" as a code word for something notorious or evil during the 2008 US presidential election - which no doubt will be used again in 2012 - that triggered this book. Digging through his life in the two cultures for reasons behind this code, Wine comes across a Swedish fact so mind-boggling to his American mind that it compels him to explore this moment on the planet and how each country grapples with the momentous challenges never before faced by civilization.
