The Interpretation of Object-Oriented
Programming ...

The focus of procedural programming is to

Online Library Object Oriented Programming

break down a programming task into a collection of variables, data structures, and subroutines, whereas in object-oriented programming it is to break down a programming task into objects that expose behavior (methods) and data (members or attributes) using interfaces. The most important distinction is that while

Online Library Object Oriented Programming

procedural programming uses procedures to operate on data structures, object-oriented programming bundles the two together, so an "object ...
