Description. The Psychology of  
Nonviolence explores in a  
psychological perspective the  
meaning of nonviolence,  
particularly its philosophy,  
strategy, and implications. This  
book reports scientific evidence  
often based on experiments  
performed in accordance with the  
rules of experiments as the  
subject matter permits.

Nonviolence (or non-violence) is a moral philosophy that rejects the use of violence in efforts to attain social or political change, and proclaims other means such as disobedience or the power of persuasion. While frequently used as a synonym for pacifism, since the mid 20th century the term nonviolence has come to embody a diversity of techniques for waging for social change without the use of violence, as well as the underlying political and philosophical rationale for the use of these ...

The development of saty graha or nonviolent action to resolve social and political conflicts is Gandhi ' s most important contribution to modern social psychology. Placing Gandhi ' s work within the context of psychology, the concept of saty graha is examined in relation to psychoanalytic theory, reviewing in particular the work of Erik Erikson and Sudhir Kakar.
