Different  
programming  
languages use

different keywords to  
specify different data  
types. For example, C  
and Java

programming  
languages use int to  
specify integer data,  
whereas char  
specifies a character  
data type.

# Download File PDF

Subsequent chapters will show you how to use different data types in different situations.

entire program can function in an efficient manner. “ We know that in the programming world, data is the center and everything revolves around data.

~~Introduction To Data Structures In C++~~  
C Increment and Decrement Operators.  
C programming has

# Download File PDF

two operators  
increment ++ and  
decrement --to  
change the value of  
an operand (constant  
or variable) by 1..  
Increment ++  
increases the value  
by 1 whereas  
decrement  
--decreases the value  
by 1. These two  
operators are unary  
operators, meaning

Download File

PDF

they only operate on a single operand.
