Your vacuum comes with one. Even your blender comes with one. But your PC--something that costs a whole lot more and is likely to be used daily and for tasks of far greater importance and complexity--doesn't come with a printed manual. Thankfully, that's not a problem any longer. PCs: The Missing Manual explains everything you need to know about PCs, both inside and out, and how to keep them running smoothly and working the way you want them to work. A complete PC manual for both beginners and power users. PCs: The Missing Manual has something for everyone. PC novices will appreciate the unassuming, straightforward tutorials on PC basics, such as hooking up a monitor, keyboard, mouse, printer, and scanner. Families will enjoy sections on networking several computers to share an Internet connection, sharing one monitor between two PCs, connecting portable media players, and creating a home theater system. Adventurous PC users will like the clear photos explaining how to take your PC apart and replace or upgrade any failing parts; IT professionals will be grateful to have something to hand to their coworkers who need solid, trusted information about using their PC. In PCs: The Missing Manual, bestselling computer author Andy Rathbone delivers simple, reliable advice on the kinds of things PC users confront every day. He shows you how to connect and configure today's must-have devices (including digital cameras, portable music players, digital camcorders, and keychain drives), burn CDs and DVDs, scan and fax documents, and more. His section on the Internet explains how to choose the best Internet Service Provider and web browser for your needs; send email; find information quickly on the Web; share photos online; set up a blog; set up a webcam; access TV and radio through the Internet; and shop safely online. And Rathbone delivers plenty of guidance on keep your privacy and your PC safe by installing firewalls, creating safe passwords, running antivirus software, removing spyware and adware, and backing up important files.

You already know that Foreclosures are at all time highs. Come and walk the offbeat world of Mike Strobels popular column in the Toronto Sun. Meet legendary panhandler Shaky Lady, the secretive swinger Sexy Boots, and the notorious Bicycle Bandit. Each column in this collection is a mini-world, tight and bright.

Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews.

It might be the long lines at the theater, the \$4.00 for a small bag of popcorn, or the cutting-edge technology that's now so readily available to the home market. Whatever the reason, the home theater market today is booming like the soundtrack to Star Wars! Want proof? A Google search for home theater reveals over three million results. Yikes! It's simply undeniable. More and more people prefer watching their favorite movies, television shows, and videos from the comfort of their own sofas and couches. What's also undeniable is the inexperience of most people who choose to install or upgrade their home theaters. Until now, the knowledge, technique, and experiences of those who've encountered similar conditions to yours could only be accessed through laborious web searches, stacks of magazines, and water cooler conversations. Home Theater Hacks from O'Reilly is the perfect remedy for this group. A smart collection of insider tips and tricks, Home Theater Hacks covers home theater installation from start to finish, purchase to experience. Just imagine: no frustrating trial-and-error process and better yet, no expensive appointments with installation experts. Home Theater Hacks prevents both by imparting down-and-dirty technique not found anywhere else. The book begins with a quick glossary of terms so you can speak the lingo when you go shopping, and then dives right into hush-hush, insider tricks. It's all covered where to find the right audio and video components, how to deal with speakers and wiring, understanding cable connectivity, mastering remote controls, how to fully grasp TiVo, and so much more. And to top it off, each of these insider tips is presented in a concise yet delightfully entertaining style. Bringing the Jurassic Park dinosaurs into your living room has never been so easy! A seasoned veteran with numerous O'Reilly titles under his belt, author Brett McLaughlin leaves no stone unturned in helping you customize your home theater experience to your own personal environment.
