From Belize to Brazil, the forests of the American neotropics are home to an astonishing array of birds—over 3,700 different species, or nearly 40 percent of all the birds on earth. Because of this overwhelming abundance, birders come from all over the world to try to catch glimpses of species that can be found nowhere else, such as toucans and antbirds, motmots and manakins, bellbirds and cocks-of-the-rock, and practically all of the planet's hummingbirds. Two such birding enthusiasts are Vera and Bob Thornton, who have spent fifteen years photographing these special and exotic birds in the rainforests of eleven different countries of Central and South America. In this book, you'll find more than a hundred spectacular color photographs they took during their travels, along with a highly entertaining account of their adventures—and misadventures—in chasing these exotic neotropicals. The birds pictured here are among the Thorntons' personal favorites—birds that, in their words, "either dazzled us with their beauty, or charmed us by their behavior, or, in a few cases, simply challenged us by the mystique of their rarity." This latter category includes such elusive and sought-after birds as the Black-crowned Antpitta, the Zigzag Heron, the Rufous-vented Ground-Cuckoo, the Bare-necked Umbrellabird, and the monkey-eating Harpy Eagle. In the accompanying text, Bob Thornton engagingly describes the challenges as well as the magic of negotiating the neotropical rainforests in search of colorful birds to photograph. For those who would like to follow in the Thorntons' footsteps, there are also helpful tips about photographic gear and techniques, preferred places to see the birds, lodging, and guides.

For everyone who enjoys excellent nature photography, *Chasing Neotropical Birds* is a must-have volume on the coffee table or in the library.

"The rise and fall of kings and nations!"--Cover.

The transition from stage to screen was not only a shift in popular entertainment, but a challenge for those working in the industry as well. This book looks at all the attempts to organize film actors into a union, starting in 1912 when the Actors' Equity Association seemed the best platform for such an effort, to the establishment of the Screen Actors Guild (SAG) in 1933 as the best vehicle to represent film actors; another four years passed before SAG was formally recognized by film producers and the first contract was signed.

Martindale: *The Complete Drug Reference* provides unbiased and evaluated information on drugs and medicines in use around the world. It is prepared by an experienced team of pharmacists and life scientists who use their professional expertise to select the most clinically relevant and appropriate information from reliable published sources.

The *Dictionary of International Trade Law* book was the first of its kind and remains the indispensable reference that students, scholars, and practitioners around the world frequently consult. This Dictionary defines and explains in detail hundreds of terms -- common and uncommon ones -- used in the field, from the "ACU" and "CMAA" to "TIFA" and the "WCO.". Many entries include organizational charts (e.g., the structure of the new Department of

Homeland Security) and tables (e.g., of precedent-setting cases on zeroing). Many entries also provide references for further research. Notably, the Dictionary has two Annexes: • Annex A has data on U.S. FTAs, including votes by political party in Congress, on immediate versus deferred duty-free treatment for goods, market access for services, and government procurement thresholds. It also boasts a Note on TPP, which is rich in breadth and depth. • Annex B sets out research tools, such as tables on milestones in Chinese history (from early dynasties through modern legal reforms), EU institutions, and U.S. trade statutes. Like the globally acclaimed book, *International Trade Law: An Interdisciplinary, Non-Western Textbook*, the Dictionary enjoys both legal and non-legal audiences. That is because the Dictionary pays special attention to practical terms and theoretical concepts from international economics and development studies. Among the highlights of the third edition of the Dictionary are: • Several dozen brand New and Expansive entries for even more thorough coverage. • Updated and expanded material for hundreds of existing entries. • Several hundred Suggestions for Further Research, covering materials published up through the first 20 years of the life of the WTO. • Compilation, synthesis, and analysis of updated data on every one of America's FTAs, and of every one of Japan's EPAs. • Updated historical information about milestones in the economic development of the EU and China. In sum, the 1,500-page Dictionary is the user-friendly tool for students, scholars, and practitioners to navigate through and critically analyze the complex jargon and concepts in trade. The eBook versions of this title feature links to Lexis Advance for further legal research options.

Time is the one thing no manager has enough of. background information, and guidance on the most relevant topics in business. Whether you are a new manager seeking to expand your skills or a seasoned professional looking to broaden your knowledge base, these solution-oriented books put reliable answers at your fingertips.

This work provides comprehensive and contemporary information on the essential concepts and terms in video and television, including coverage of test and measurement procedures.

#NOT a real book (Just a screed) Does all the hype surrounding social media make sense? Isn't it time that somebody tried to deconstruct all this bullshit? What are social media? Are they the same websites we used to call social networks? Why did we start calling them social media? What is social media marketing? Are companies doing it right? Does it make sense to send your website visitors to Twitter and Facebook? Do people really want to "engage" with brands? Do companies really want to have "conversations" with their customers? What is the value of a Facebook "like"? What is "organic reach"? What happens now that the free lunch is over? - - - The 15 Questions: 1. What are social networks? 2. What are social media? 3. What is social media marketing? 4. Are companies doing it right? 5. Why are companies sending people over to social media? 6. Does it make sense? 7. Do people really want to engage with brands? 8. Do companies really want to engage with their companies? 9. Are social media useful for customer service? 10. What is the value of a Facebook "like"? 11. What does "earned media" mean? 12. What is "organic reach"? 13. Is the free lunch over? 14. What happens now? 15. What is the dumbest social media stunt ever? - - - Download it now: it's a smart 15 minutes' read.
