The Hobbit: The Battle of the Five Armies (2014) - IMDb

This is the shortest Hobbit movie. That's not why it's the best of the three, although that helps. It only takes 20-minutes to wrap Desolation of Smaug's story, and from there, Battle of Five Armies contains itself primarily to one location. There's more focus on character, narrative, and arcs instead of effects, places, or things.

The Hobbit: The Battle of the Five Armies - amazing movie from 2014 year. I accept that my expectations are very low before I see this movie. The movie is openly dreamlike, and like most dreams it moves uncertainly down a path with many turnings. It is a movie that truly knows what it is and wastes not even a second in conveying what that is.

Finishing off The Hobbit trilogy and I have to say I feel a little relieved. This series still doesn't have the charm of others, but this one is pretty solid though. The massive war wattles is exactly what the trilogy has been building up to and it really pays off. Sure, it has heavy CGI that doesn't always pay off but what would you expect at this point? I really like how dark this one is ...
