Competition is fiercer today than ever before, and effective leadership represents a rare source of competitive advantage. With strong leadership and a richly stocked pool of future leaders, organizations prosper and endure. There is an easy case to make for the imperative of investing in tomorrow's leaders today. It's the law of supply and demand: more organizations in greater competition under increased pressure to perform put a premium on scarce talent. The labor economy has become a seller's market, and poaching or luring talent away from other organizations is a losing proposition. The alternative is to become good at developing your talented managers into great leaders and aggressively seeking out potential and developing it anywhere and everywhere you can find it across the organization. The purpose of this volume is to share what has been learned in the last few years of increased attention to the systematic and strategic cultivation of leadership talent. The time is ripe for leading practitioners to share key lessons about building and filling a leadership pipeline.

In a dark world where vampires exist and where Source Blood, a rare human blood type, can bestow godlike powers upon them, the vampire Venators of the Sovereignty fight to protect the humans by banishing those who drink it to the endless dark. Exiled from his family and with only his duty to sustain him, Kearn has been on the trail of an elusive Source Blood abuser for three years. When he saves a beautiful human female from the vampire's grasp, it turns out she's the lead he's been waiting for. Amber is a Source Blood and the perfect bait, but for who? As they race to catch the vampire and survive the cruel games he plays, Amber is pulled deeper into Kearn's world and discovers the painful secrets he hides behind his handsome but emotionless exterior-hurt that she has the power to heal if she is brave enough. *Forbidden Blood* is a dark, sensual tale of betrayal, revenge and a love that knows no bounds.
